# LIGHT CONDITIONING

## LIGHT CONDITIONING—SCIENCE'S NEWEST GIFT TO THE EYES

In Light Conditioning your home use the same basic principle that Mother Nature used in lighting the earth . . . overhead lighting.

For general illumination use the well designed overhead lighting fixtures illustrated on the following pages. You will be well pleased with the Decorative Lighting Distinction contributed by all Virden Value Fixtures, and best of all, their moderate prices bring artistic lighting, styled to the modern trend, within easy reach of the most modest budget.

## The Tiffany Series

Finish: Shell Ivory and Gold

An imposing group of fixtures ultra modern in their practical lighting performances but styled with the popular colonial candlewick motif on the fired finish shades and crystal center structure.

## The Shelburne Series

Finish: Light Ivory and Gold with Crystal Trim

The Shelburne Series is unquestionably one of the greatest values we have ever offered. It combines real beauty of design with sterling quality of semi-indirect lighting. The light is directed upward to be reflected and diffused from the ceiling while through the wrought glass bottom an excellent light is cast downward. Never have these qualities been combined at so low a cost.

## The Ashbury Series

Finish: Antique Gold with Color  
with Ivoritone Glass

The Ashbury fixtures, generous in size and so economical in cost, meet perfectly the standards of the Better Light - Better Sight program. The Wrought Glass pockets in Ivoritone finish cast the soft glareless light so vitally important to eyesight conservation.

## The Huntington Series

Finish: Toned Ivory and Gold

In these attractive pieces our designers have answered the wide demand for inexpensive yet nicely styled fixtures in a finish to match the light woodwork so generally used today by interior decorators. Sturdily constructed of cast metal, their durable lacquer finish will last indefinitely.

## The Town Crier Lanterns

Outdoor Lanterns, subjected as they are to wintry snows and summer rains, should be carefully selected with an eye to durability as well as to decorative value. Into these pleasing designs have been built the unseen factors so necessary to withstand the acid test of weather. They are packed individually and wired complete.

It is generally conceded that the only truly Safety Hanger is one employing the Internal Suspension construction in which the Globe is firmly and safely supported from within instead of by the tension of screws or other squeezing devices applying pressure to the Glass Fitter.

The new Virden Safety Hanger is positive in its action and simplicity itself to operate.
